Takeout Box

Difficulty – Medium

Materials

- Medium black takeout box (takeout boxes are inexpensive and easy to find at your local craft or party store)
- Spiderweb patterned craft or scrapbooking paper
- 1/8-inch wide black satin ribbon
- 1 small black plastic spider
- 1 small round red rhinestone
- Scotch® Precision Scissors (6" for cutting ribbon and 8" for cutting craft paper)
- Scotch® Permanent Glue Stick (for attaching craft paper)
- Scotch® Clear Glue with 2-Way Applicator (for gluing ribbon)
- Scotch® Quick Drying Tacky Glue (for gluing the spiders)

Instructions

1. Attach the red rhinestone onto the back of the small spider using Scotch® Quick Drying Tacky Glue.

2. To cover the handle, apply a small amount of Scotch® Quick Drying Tacky Glue to the end of the back of the ribbon and attach it to the box where the metal handle meets with the side of the box. Let dry.

3. Wrap the ribbon tightly around the handle, slightly overlapping as you go.

4. Finish by cutting the ribbon and applying a small amount of glue to the end of the back of the ribbon and attach it to the box where the metal handle meets with the side of the box.

5. Cut a piece of the spiderweb patterned craft paper the entire size of the front of the box. You can use the box to trace the shape. Try to account for the pattern before you cut the paper so there will be a whole spiderweb design on the front of the box.

6. Using the Scotch® Permanent Glue Stick, apply glue to the wrong side of the craft paper, especially around the edges. Attach the spiderweb craft paper to the front of the box, lining up the edges of the paper with the edges of the box.

7. Cut two pieces of the black satin ribbon the entire width the front of the top part of the box. Using the precision tip of Scotch® Clear Glue, attach one piece of ribbon to the front of the box 1/2 inch from the top and the other 1/4 inch below the first. Small amounts of glue can be added to the cut edges of each side of the ribbon to prevent fraying.

8. Cut two more pieces of the black satin ribbon the entire width the front of the bottom part of the box. Using the precision tip of Scotch® Clear Glue, attach one piece of ribbon to the front of the box 1/2 inch from the bottom and the other 1/4 inch above the first. Small amounts of glue can be added to the cut edges of each side of the ribbon to prevent fraying.

9. Using the Scotch® Quick Drying Tacky Glue, attach the small spider onto the center of the spiderweb placing it at a slight angle.
