

## How to Use Scotch® Single-Use Super Glue for Crafts

# Charming Planter

This fashionable planter can be dressed to match each season by changing the metal charms. Mosaic tiles are attached to the rim of the planter using **Scotch® Single-Use Super Glue**. It's quick drying, mess-free application makes it snap to decorate the terracotta surface.

Difficulty – Easy

### Materials

- Terracotta pot with glazed base
- Outdoor craft paint in dark metallic brown
- Multi-colored brown mosaic tiles
- Thick brown jute string
- 2 metal jewelry charms
- **Scotch® Single-Use Super Glue** (for attaching mosaic tiles)
- **Scotch® Ultra-Edge Non-Stick Precision Scissors** (for cutting string)
- **Scotch® Quick-Dry Adhesive** (for gluing jute string)
- **Scotch® Reclosable Fasteners Black Dots** (for attaching charms)

### Instructions

1. Paint the rim of the terracotta pot in metallic brown paint and let dry.

2. Using **Scotch® Single-Use Super Glue**, attach the mosaic tiles to the center of the painted rim. Create a repeating pattern of the colors so the tile configuration is consistent on all sides.

3. Using the **Scotch® Ultra-Edge Non-Stick Precision Scissors**, cut a piece of the jute string long enough to wrap around the bottom of the pot 5 times.

4. Using **Scotch® Quick-Dry Adhesive**, apply glue to the bottom of the planter and attach the jute string. Continue to add glue to bottom of the pot as you continue to wrap the string around the planter. Let dry.

5. Apply **Scotch® Reclosable Fasteners Black Dots** on the wrong side of each of the charms and also to the front of the pot in the position of where you would like the charms to appear.

6. Attach the charms to the front of the planter. They can be removed and replaced with seasonal charms by adding **Scotch® Reclosable Fasteners Black Dots** to the back of the new charms. There is no need to replace the fasteners attached to the planter.
